

## Pilot Funding for Geothermal for New Construction Buildings in NYC

# STRATCO

PROPERTY SOLUTIONS

Geothermal solutions provide efficiencies more than 400%, while traditional fossil fuel systems are limited to 78-90%.

Heating and cooling are the largest elements of energy use and greenhouse gas emissions in buildings and a key focus in NY climate laws.

The U.S. Energy Department says consumers can cut their energy bills by up to 65 percent when compared to traditional heating and cooling systems.

## PARTNER WITH STRATCO TO OBTAIN PILOT FUNDING FOR GEOTHERMAL FOR YOUR NEW CONSTRUCTION PROJECTS

### Project Criteria to Qualify

- New construction build
- Must have parking lot on-site or large side yard

### WHY CHOOSE GEOTHERMAL?

- Lower emissions
- Small physical footprint
- Dual heating and cooling
- Low maintenance cost
- Easy to operate
